

Sprint 2 UI Prototypes

[User Story 13]: As a condo owner, I would like to have a good view of my properties (dashboard) to quickly access my portfolio units.

Landing Page:

My Properties Page:

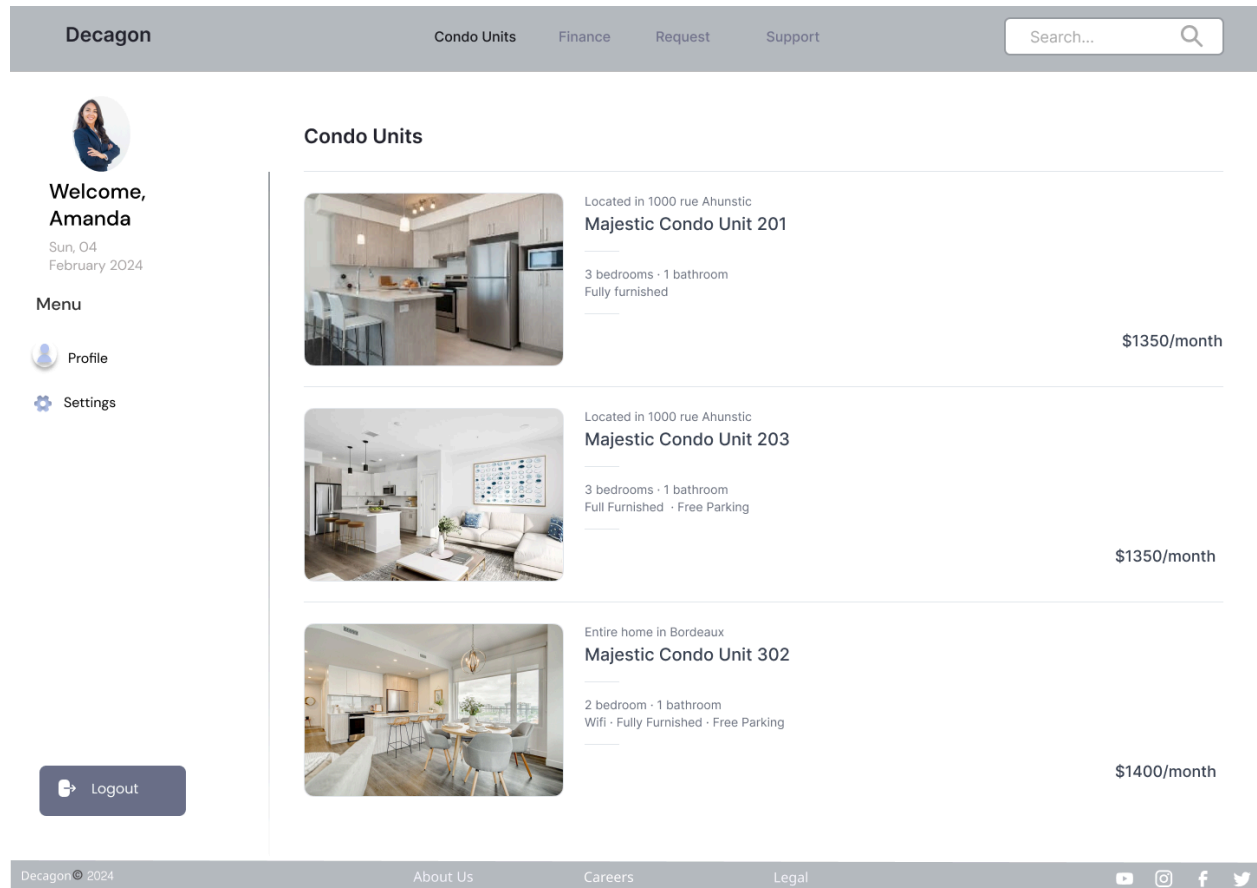

Steps:

1. Upon logging into Decagon as a condo owner, they will be redirected to the landing page where they can see all properties listed in Decagon.
2. The user can click on “My Properties” located on the nav bar which will redirect them to the “My Properties” page.
3. Every property is depicted in a card on the page which displays some basic information about the property.
4. Upon clicking the “View” button on any of the property cards, the user will be redirected to another page where they can see the details of the property including all its condos (i.e: the condo page).

Condos Page:

[User Story 13 & 20]: As a condo owner, I would like to have a good view of my properties (dashboard) to quickly access my portfolio units. Also, as a user, I would like to register my account with units, lockers and parkings that I rent or own so that my account can be properly associated.

Steps:

1. Upon logging into Decagon as a condo owner, they will be redirected to the landing page where they can see all properties listed in Decagon.
2. The user can click on “Condo Units” located on the nav bar which will redirect them to the “Condo Units” page. Otherwise, they can also access the “Condo Units” page by clicking the “View” button on a property card in the “My Properties” page.

[User Story 14]: As a user, I would like to create a profile for a property under my management (condo manager) to provide more detail on a specific unit.

Add New Building Form 2:

The screenshot displays the Decagon web application interface. At the top, a navigation bar includes the Decagon logo, links for Home, Finance, Request, and List a Property, and a search bar. On the left, a user profile for Amanda is shown with a welcome message and a menu containing Profile and Settings. The main content area is titled "Adding New Property" and features a "Basic Information" section with a "Location" dropdown set to "Montreal, QC". Below this, there are sections for "Type of Place" (with checkboxes for Building, House, and Condo, where Condo is selected), "Features" (with checkboxes for Air Conditioning, Dishwasher, Washing Machine, Parking, Pool, Fitness Center, and Transport Friendly, where Air Conditioning, Dishwasher, and Parking are selected), and "Condition" (with checkboxes for New, Renovated, and Old but in good conditions, where New is selected). A large, rounded rectangular overlay in the center of the form displays a blue checkmark icon and the word "SUCCESS" in bold blue capital letters. A "View Property" button is located at the bottom right of the form. The footer of the application includes the Decagon logo, the year 2024, and links for About Us, Careers, and Legal, along with social media icons for YouTube, Instagram, Facebook, and Twitter.

Success message (After the User Save all the info)

Steps:

1. Upon logging in to the account, the condo manager will click the “Add new Property” in the landing page's nav bar.
2. The user will be redirected to the List Property page.
3. On the left side, there is a “Basic information” section. The user clicks on the "Choose an Option" dropdown to select the property's location from a list of predefined options.
4. Users also need to click on all the checkboxes for the Categories of type, features and conditions that apply to the property they're adding.

5. On the right side, the user has to enter detailed information about the condo such as full address, number of bedrooms, bathrooms, etc.. . They will also need to upload pictures of their property
6. Once the user clicks on the “save” button, the user will get a pop-up success message and then will be redirected automatically to the My Properties page.

[User Story 17]: As a condo management company, I would like to set up different roles for different employees in order to detail my staff.

The screenshot displays the Decagon web application interface. The top navigation bar includes the Decagon logo, links for Condo Units, Finance, Request, and Support, and a search bar. The left sidebar features a welcome message for 'Magestic Condo' dated Sun, 04 February 2024, a menu with links to Profile, Roles, Employees, and Settings, and a Logout button. The main content area is titled 'Employees' with a count of 100. It includes tabs for All Employees, Teams, and Roles, a search bar, and buttons for Export and New Employee. A table lists employees with columns for Name, Status, and Role. The table contains 10 rows of employee data. At the bottom, there is a pagination bar showing 'Prev', '1', '2', '3', '...', '8', '9', and '10'.

Steps:

1. Upon logging into Decagon as a condo management company, the user can navigate to the dashboard and select the option “Roles”.
2. This action will redirect them to the page containing the list of the existing employees and their assigned roles.
3. The manager can assign or edit an employee’s role by simply clicking on the “Edit” button.

4. Subsequently, the manager needs to click on the "Choose an Option" dropdown to select the desired role.
5. After selecting the role, the manager must save the edits, and the Roles page will automatically update to reflect the changes made.
