Backlog

This document describes the backlog for the entire project: Condo Management System. The below outlines the tasks that could not be completed in previous sprints.
*** Initially, I posted all the tasks planned for the project. I switched it for sprint 2 to match what a backlog actually is. Since we finished all tasks for Sprint 1, the backlog would have been empty.

Green: New to the backlog
Yellow: Modified
Cross-out: Finished User Story

User Story 13: As a user, I would like to have a good view (dashboard) of my properties to quickly access my portfolio units. SP: 21
